

Full name: Darryn Rae / RAEART

Category: Painter

Bio: Darryn Rae is a Canadian visual artist specializing in abstract and surreal paintings using acrylics on canvas. A graduate of the Fine Arts program at Fanshawe College in Ontario, he has spent more than two decades developing a signature style that often blends contemporary "street art" influences with classic landscape themes. His career is marked by a deep commitment to his studio practice, as well as an interest in experimental video making to document and capture his creative process. Beyond his personal practice, Rae is dedicated to art education, sharing his skills and layering techniques with aspiring artists through both online and in-person teaching.

Artist Statement: "My paintings are original, vibrant, and truly unique. While my work is emotionally uplifting and aims to bring joy, beauty, and inspiration to viewers, it also tackles deeper topics of educational, environmental, and socio-political relevance. I am fascinated by the interplay of color and movement, often allowing my ideas to develop subconsciously in the studio. Through my signature acrylic layering techniques, I strive to create dreamy, surreal surfaces that invite viewers to explore their own emotions and perspectives. My objective is to connect with those who share my artistic vision and to continue growing as an artist through challenging commissions and experimental media".
